About Us

Since its inception in the year **2012**, **Advance Electricals**, is involved in **manufacturing**, **trading** and **wholesaling** a wide variety of Coil Heaters, Cartridge Heaters, Infrared Heaters, Band Heaters etc. These products offer high durability and wide application in many industrial sectors. All the products offered by us can also be availed in a variety of customized versions manufactured as per the specifications provided by the clients.

We have developed a huge infrastructural set up which enables us to have a vast manufacturing unit installed with the latest machinery. This manufacturing unit is divided into different sections which enable us to take bulk orders from different clients which are to be dispatched in a stipulated time frame. We also have an entire section dedicated to quality control and check which helps us to ensure that all the products we manufacture are highly qualitative. Our in-house R & D unit feeds us with fresh ideas to bring in changes in the product and the methodologies used to manufacture them. Our customers can also avail from us a wide range of customized products that are manufactured as per individual orders placed by the clients. We are committed to providing maximum satisfaction to our esteemed clients. To serve this purpose we offer products which are as per the client's requirements and can be availed at highly feasible prices. These products have to go through a strict quality check process...
